The MTEC website contains links to other websites. SCRA nor MTEC are responsible for the privacy practices or the contents of such websites.

Terms of Use

The information contained and accessed on this site (the "Site") is provided by MTEC and is intended to offer the user general information of interest about the MTEC program. The information provided is not intended to replace or serve as substitute for any audit, advisory, tax or other professional advice, consultation or service. You should consult with an SCRA and/or MTEC professional in the respective audit, advisory, tax or other professional area to obtain such services and/or information.

The application of laws and regulations may vary depending on specific facts or circumstances. Due to the nature of electronic communication processes, MTEC does not guarantee or warrant that this Site will be uninterrupted, without delay, error-free, omission-free, or free of viruses. Therefore, the information is provided 'as is' without warranties of any kind, express or implied, including accuracy, timeliness and completeness. In no event shall MTEC, SCRA and/or its programs, related partners, managing directors, principals, agents or employees be liable for any direct, indirect, incidental, special, exemplary, punitive, consequential or other damages whatsoever (including but not limited to, liability for loss of use, data or profits), without regard to the form of any action, including but not limited to, contract, negligence or other tortious actions, arising out of or in connection with the Site, any content on or accessed by use of the Site, or any copying, display or other use hereof.

As content on the Site is copyrighted and proprietary, any unauthorized use of any materials on the Site may violate copyright, trademark and other laws. Should a user download the materials on the Site for personal or non-commercial use, the user must retain all copyright, trademark or other similar notices contained in the original materials or on any copies of the material. Materials on the Site may not be modified, reproduced, publicly displayed, performed, distributed or used for any public or commercial purposes without explicit written permission from the appropriate content or material provider (including third-party links). SCRA and MTEC bears no risk, responsibility or liability in the event that a user does not obtain such explicit written permission as advised by MTEC and/or SCRA.

Medical Technology Enterprise Consortium ("MTEC") and SCRA program logos are trademarks of MTEC and /or SCRA. Use of these marks requires express permission from, and a license agreement with MTEC or SCRA as appropriate. Unauthorized use of these and any other MTEC or SCRA portfolio of trademarks will be prosecuted to the fullest extent of the law. To request this written approval, contact the Webmaster or use the "Contact us" feature.

Third-party links are provided as a convenience to our users. SCRA nor MTEC control or are responsible for any of these sites or their content. MTEC and SCRA are obligated to protect its reputation and trademarks and MTEC and SCRA reserves the right to request removal of any link to our Web site.

The following Web link activities are explicitly prohibited by MTEC and SCRA and may present trademark and copyright infringement issues:

- links that involve unauthorized use of our logos
- a form of link that disguises the URL and/or bypasses the homepage or pages containing the above legal disclaimer and/or the online privacy policy statement.

Accessibility in SCRA Programs

Accessible Website

The Medical Technology Enterprise Consortium and SCRA Applied R&D are committed to providing access to our web pages for individuals with disabilities, both members of the public and Federal employees.

To meet this commitment, we will comply with the requirements of Section 508 of the Rehabilitation Act. Section 508 requires that individuals with disabilities, who are members of the public seeking information or services from us, have access to and use of information and data that is comparable to that provided to the public who are not individuals with disabilities, unless an undue burden would be imposed on us. Section 508 also requires us to ensure that Federal employees with disabilities have access to and use of information and data that is comparable to the access to and use of information and data by Federal employees who are not individuals with disabilities, unless an undue burden would be imposed on us.

If you use assistive technology (such as a Braille reader, a screen reader, TTY, etc.) and the format of any material on our web sites interferes with your ability to access the any information, please contact accessibility@scra.org for assistance in this matter. Please indicate the nature of your accessibility problem, the preferred format you would like to receive the material, the web address of the inaccessible material, and your contact information so that we may respond in a manner most helpful to you.

Accessibility in the MTEC Program

MTEC provides accessible products, documentation, services, and websites recognizing that Section 508 of the U.S. Rehabilitation Act of 1973, as amended, mandates that when the federal government purchases most electronic information and technology (EIT), including software applications, it must ensure that the EIT provides access to and use of, information or data to federal government employees with disabilities that is comparable to the access provided to federal government employees without disabilities.

Moreover, under the act, the federal government is also obligated to provide access to information and data to members of the public with disabilities that is comparable to the access provided to the public without disabilities, but also provides ease-of-use for those that do not have disabilities. We understand the importance of Section 508 requirements to our customers. The regulations adopted by the federal government to implement Section 508 generally require U.S. government agencies to purchase software solutions that are most compliant with Section 508 requirements. In addition, other customers, including state governments and international bodies, increasingly require compliance with accessibility standards when making procurement decisions. Beyond the legislative compliance, we recognize that universal design and accessibility are good business strategies.

We are committed to providing accessible software products and documentation through the ongoing evolution of our business. Recognizing that accessible software also provides ease-of-use, we incorporate universal design into our planning process. As we develop our products, documentation, services, and websites, we test them with assistive technologies and with operating system accessibility extensions to assess their compliance with applicable Section 508 accessibility criteria established by the federal government. The extent of compliance with the Section 508 accessibility criteria currently varies by product. Upon request of an eligible customer, we will provide information detailing the extent to which specific products, documentation, services, and websites of interest to the customer support the applicable Section 508 accessibility criteria.

As accessibility requirements, standards and methodologies evolve, our customers can be assured that they will continue to have access to the most current product evolution made available in our efforts to meet current and future accessibility requirements for disabled users.
