Excellence in Service is the DAWSON difference that delivers value to our clients

By leveraging DAWSON's efficient and proven organizational and operational approach to health services management solutions, our clients realize considerable economic and value-added benefits:

- Accelerated acquisition through the Native 8(a) process
- Global presence including in-place and proven strategic partnerships
- Cleared personnel allowing us to operate in secured environments
- Agility and accessibility of a small business with large business financial stability

“The DAWSON DMMS Office staff is performing not on 8 cylinders...but 16 cylinders – like a Ferrari! OUTSTANDING TEAM!”
-Mr. Ruben Garza, Chief, Defense Medical Modeling and Simulation Office (DMMSO)

“DAWSON has provided PEO Desktop to Datacenter (D2D) with exceptional support in the areas of schedule, cost, performance, and training management. They continue to be critical to the success of D2D and we look forward to a continued partnership.”
-Mr. Rolando Estrada, Deputy Program Executive Officer, PEO Desktop to Datacenter, Defense Health Agency

Proven Project Experience

PROJECT: Defense Health Agency (DHA) Health IT Directorate (J6) Support

LOCATION: Fairfax, VA and San Antonio, TX | **CLIENT:** DHA

SCOPE: The DAWSON team provides strategic consulting services to DHA J6 executives, directors, project managers, and engineers to ensure that programs within the directorate meet cost, performance, schedule, and risk assessment and mitigation requirements. In support of the globally deployed Desktop to Datacenter (D2D) program of record, DAWSON created and managed resource and cost models as well as a robust integrated master schedule ensuring timely deployment of resources to Military Health Facilities. DAWSON directly contributes to the coordination, development, and facilitation of functional and technical training sessions hosted at military treatment facilities around the world. DAWSON supports the development of "Train the Trainer" curriculum to educate and empower D2D Champions for each facility. The team is also developing computer-based training products for ongoing use by D2D Champions and stakeholders throughout DHA.

PROJECT: DHA Education and Training Directorate (J7) Defense Medical Modeling and Simulation Office (DMMSO) Support

LOCATION: McLean, VA and San Antonio, TX | **CLIENT:** DHA

SCOPE: DAWSON leverages our team members' direct knowledge of the needs, challenges, interdependencies and stakeholders in support of the DHA J7. Our team works with the DMMSO and J7 leadership to analyze, consolidate, and integrate simulation and modeling requirements and capabilities to increase readiness, provide better care for better health at a lower cost.

PROJECT: DHA Education and Training Directorate (J7) Military Treatment Facilities Division (MTFD)

LOCATION: McLean, VA and San Antonio, TX | **CLIENT:** DHA

SCOPE: In addition, DAWSON supports the DHA J7's new Military Treatment Facilities Division (MTFD), coordinating education and training requirements at military hospitals and clinics around the world. With the management takeover of hundreds of military treatment facilities in October 2019, DAWSON assisted J7 leadership in standing up a new division to manage and evaluate all military health education and training requirements.

PROJECT: DHA Research and Development (J9) National Museum for Health and Medicine (NMHM) Support

LOCATION: Silver Spring, MD | **CLIENT:** DHA

SCOPE: DAWSON provides mission-essential support services to the National Museum of Health and Medicine (NMHM). NMHM focuses on the impact of military medicine, through innovative exhibits, programs, and world-class collections. Our NMHM team manages, catalogs and accounts for over 25 million objects, documents and specimens. Projects include educational program development, volunteer management, exhibition design and installation, social media and website content and development, publications, and the preservation of the collection.

PROJECT: Nuclear Munitions Command and Control (NMC2) Data Management Services (Sharepoint)

LOCATION: Kirtland AFB, NM | **CLIENT:** Air Force Global Strike Command

SCOPE: DAWSON is currently fulfilling the Department of the Air Force, Air Force Materiel Command (AFMC), Air Force Nuclear Weapons Center (AFNWC), Air Force Nuclear Weapons Center Logistics Directorate requirement to maintain and sustain the Nuclear Maintenance Command and Control (NMC2) Maintenance SharePoint site at Kirtland AFB. NMC2 (also referred to as site collection) is the standardized, unclassified scheduling and tracking system for all nuclear weapons maintenance. Additionally, it allows enterprise collaboration across MAJCOMs, DTRA, and USSTRATCOM. DAWSON manages the composition of over 300 Nuclear Enterprise permission groups comprised of over 13,000 individual users.
